

NORDSTROM NSPIRE PROGRAM

Are you interested in software engineering, planning on graduating college in 2025, and looking for ways to brush up your coding skills while investing in your personal growth?

THE NORDSTROM NSPIRE PROGRAM IS FOR YOU!

We will help develop and inspire you to be the best version of yourself as you explore opportunities, apply your skillset, and contribute to the technology organization at Nordstrom. During the program you can expect to:

- Gain insight into Nordstrom culture and our diversity-focused initiatives
- Build a network of support that encourages you to be your whole self
- Enhance your technical skills and develop your professional acumen
- Interview for a software engineering internship role for Summer 2024

This two-week paid program will run from August 7-14, 2023. You'll spend the first week at our corporate offices in Seattle, Washington and the second week online.
